How long did it take?

The median is the middle value: half of the orders were faster, half were slower.

	All orders	Standard	Urgent
Median time	2.7 days	3.0 days	21 hours
Half of orders took between	1.3 and 4.5 days	1.8 and 4.8 days	13 and 43 hours
Within 1 business day	38%	31%	81%
Within 3 business days	78%	75%	95%
Within 5 business days	92%	91%	96%
Within 7 calendar days	91%	90%	96%

Business days are Monday to Friday. Moroccan public holidays are not removed, so these counts are slightly pessimistic.

How this compares with the announced processing times

When the eVisa launched, Morocco's Ministry of Foreign Affairs announced on diplomatie.ma that applications submitted online would be handled within **72 hours** on the standard track and **24 hours** on the faster track.

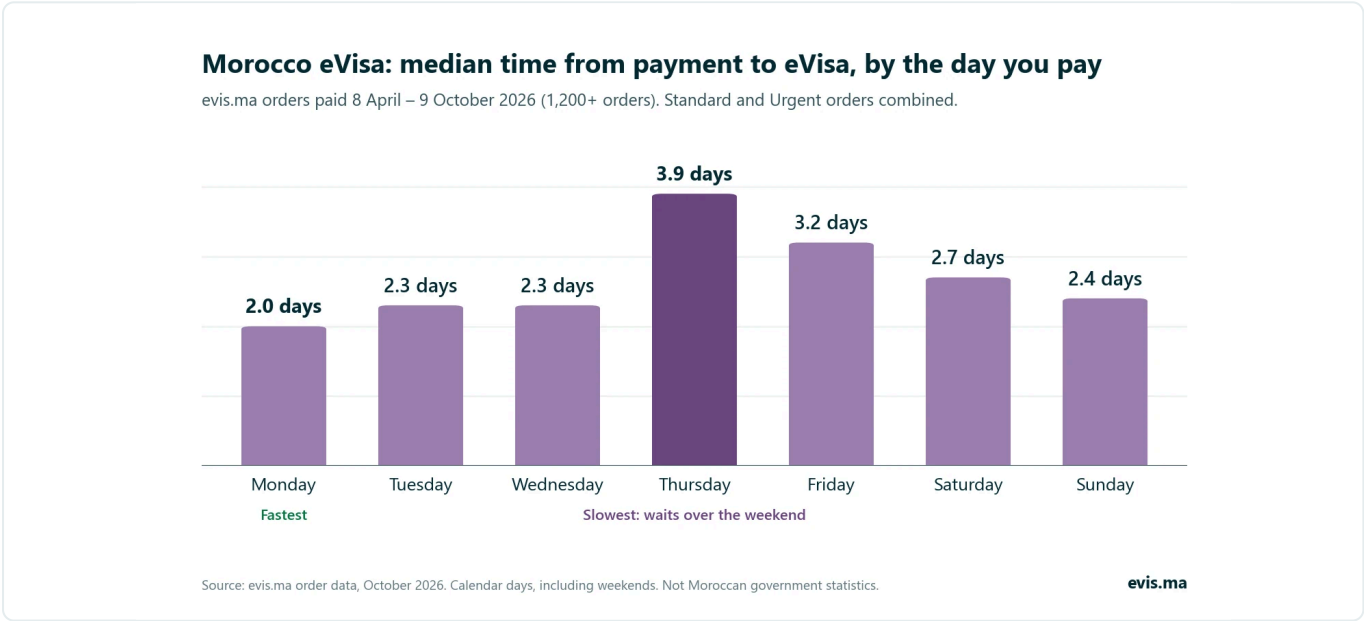

Our data is close to that: the median Standard order took **72.8 hours**, and the median Urgent order took **21 hours**.

Medians are not guarantees. About **1 in 4 Standard orders** took longer than three business days, mostly because of weekends. Our figures also include our own document check before submission.

The day you pay matters

The process largely pauses at weekends. **96%** of eVisas were delivered on a weekday, and Monday was the busiest delivery day.

Day you paid	Median time to eVisa
Monday	2.0 days
Tuesday	2.3 days
Wednesday	2.3 days
Thursday	3.9 days (slowest)
Friday	3.2 days
Saturday	2.7 days
Sunday	2.4 days

Tip: if you are short on time, apply early in the week or choose Urgent processing. Thursday and Friday orders lose time over the weekend.

Recent months were faster

Orders paid in July–September 2026 had a median of **2.1 days**, down from **2.9 days** in April–June 2026.

How far in advance should you apply?

9 in 10 orders were ready within a week, but about **3%** took more than two weeks. We recommend applying **at least 1–2 weeks before your trip**. Applying early carries little risk: the eVisa is valid for 180 days from the date of issue and allows a single stay of up to 30 days.

Results by nationality and country of residence

We only show groups with at least 30 completed orders. Differences partly reflect how many people in each group chose Urgent processing, not nationality alone. Every decision is made by the Moroccan authorities.

Group	Median time to eVisa
Pakistani citizens	3.1 days
Nigerian citizens	2.8 days
Indian citizens	2.4 days
Egyptian citizens	2.0 days
Residents of the United Kingdom	3.0 days
Residents of the UAE	2.7 days
Residents of Germany	3.0 days
Pakistani citizens living in the UK	3.2 days
Nigerian citizens living in the UK	2.4 days

Methodology

- **What we measure:** the time from payment confirmation to the moment our team attached the issued eVisa to the order. This includes our document check, submission to the Accès Maroc platform, the Moroccan authorities' decision and our upload. It does not include the time customers spend on the form.
- **Period and scope:** more than 1,200 evis.ma orders paid between 8 April and 9 October 2026, from applicants of more than 90 nationalities.
- **Timestamps:** taken from our order records. Where the exact eVisa upload time was not stored, we used the time the order was last updated, which closely matches the upload time.
- **Excluded:** test orders, refunded or rejected orders, orders without a delivered eVisa, and orders still in progress.
- **Privacy:** all figures are aggregates. We do not show groups with fewer than 30 orders, or minimum and maximum times.
